As SAP Gold partner, PT Sterling Tulus Cemerlang (STEM) is pleased to offer a robust and proven integrated solution developed for the Commodity and Feed Industries. SAP Business one, coupled with STEM's own industry-specific solution, provides a single and affordable way to manage your entire business and supply chain: from purchase of raw materials to production, from sales and customer relationships to payment collection and from logistics to accounting/finance. Designed specifically for the Commodity and Feed Industries, our solution helps companies streamline their processes as well as act based on timely and accurate information, hence increasing profit margin and capabilities for growth.

## Diagram illustrating Our Solution for The Commodity & Feed Industries

SAP Business One helps you to manage your business by simplifying the business processes with technology.

- Generate and monitor all marketing documents
- Enable the real-time integration of all processes
- Easy access to analytics and reporting

Known as a consulting firm that invests much in software development (and for this, was awarded by SAP as Best SAP Business One solution) , STEM proudly presents the industry-specific solution for the Commodity and Feed industries. Our solution covers the integration among subsystems, such as Weighing Scale System, Manufacturing System (MES) and SAP Business One. Specific features like calculation of Gross quantity and Net quantity, multilevel discounts and Rafaksi are also included in the solution. We believe that our solution together with SAP Business One will provide a strong foundation for companies to strive for excellence.

SAP Business One makes it possible for you to experience the maximum productivity by utilizing the industry-specific features & solutions.

- Efficiently manage and optimize resources
- Capture all business information
- Make smarter business decisions
